## DETAILED ACTION

### *Drawings*

1. The proposed drawing corrections were received on May 23, 2003. These drawings are acceptable.

### *Double Patenting*

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 1-4, 6-8, 16, and 19-21 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-25 of U.S. Patent No. 6,079,339. Although the conflicting claims are not identical, they are not patentably distinct from each other because U.S. Patent No. 6,079,339 discloses a shelving system comprising at least one panel having a plurality of support structures and at least one post to support said panel, wherein the limitations of the claims of the instant invention are merely broader recitations of the limitations of U.S. Patent No. 6,079,339. Hence, it would have been obvious to one of ordinary skill in the art at the time the invention was made to construct the support structures of the instant

invention to include at least one having a curved configuration, as taught by U.S. Patent No. 6,079,339.

*Allowable Subject Matter*

4. Claim 5 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Claims 11 and 13-15 are allowed.

6. The following is an examiner's statement of reasons for allowance: These claims have been found to be allowable over the prior art of record because the prior art of record neither teaches nor suggests a shelving system comprising at least one panel having a plurality of support structures that form alternating "Z"-shaped members across the width of the support structure and form a continuous support along the length of the support structure (claim 5); and wherein the support structures includes a set of alternating opposed cavities formed in the upper and lower surfaces of the panel such that the apertures along the bottom surface of the panel are larger than the apertures on the top surface thereof (claim 11).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Response to Arguments***

7. Applicant's arguments, see pages 11-13, filed May 23, 2003, with respect to the rejection(s) of claim(s) 1-13, 15, 16, and 19-21 under Houk, Jr. *et al.* and claims 14, 17, and 18 under Houk, Jr. *et al.* in view of Welsch *et al.* have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Houk, Jr. *et al.*

***Conclusion***

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erica B Harris whose telephone number is 703-306-9071. The examiner can normally be reached on 9-5:30 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Daniel P Stodola can be reached on 703-308-2686. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-2168.
